## Resumé

Et episk eventyr i galskaben, denne serie af alternativ historie noveller, udforsker de kæder, der binder den menneskelige ånd til en gentagelse af overlevelse.

~~~

Oplysninger alene har ingen sandhed i sig selv, indtil en del af sin helhed er overset, ignoreret eller fjernes, hvorefter selv de åbenlyse kan blive forstået, accepteret eller afvist.

De Forenede Stater, og Sovjetunionen, divideret med perspektiv, men forenet i kamp, finder i slutningen af en krig i begyndelsen af det næste; det trykte ord er marts mod den ultimative magt, kun leveres af den afstand, det kunne dække.

## Forord – Dansk

Uden så absolut som sandhed vi vandre, i tankerne, i kroppen i ånden, vi er frie til at vakle mellem virkelighed og drømme i jagten på en overlevelse værdig vores værdighed. Indtil virkelighed, uanset hvad eller løse konstruere en sådan, vi befinder os opslugt af, trækker os tilbage i Strong-rablende her og nu, mod byrde og engagement gennem opfyldelse og kamp den tester vores drømme for sandheden.

Måske sandheden var ikke, hvad vi havde drømt det var, ord og deres obligatoriske følelser ofte sky vores definitioner af de mere almindelige begreber. Hvem selv blandt du taler ordet ironi uden at være ironisk? I en verden, vores mest almindelige brug af disse viser sig på være dens eneste definere, hvor vi kæmper, i en spøg og derved så tilfældigvis humoristisk, for på overleve, blandt det, der griner med

vores sandheder, som det griner på vores  
drømme, mens aldrig heller ikke til enten med  
denne Fragment Jord.

### Antændes

- Boheme Tjekkoslaviet, 4. maj 1945 -

“**N**ej, han er kortere, mørkt hår, amerikanske hær ensartet.”

“Åh, vælg dine ord klogere. Den måde,” min hektiske søgning fulgte sin finger forslag til uhyggeligt tændte tunnelen.

“Den amerikanske?” svarede den næste Officer, “levende eller døde?”

“Levende!” Jeg insisterede.

“Op ad trappen et dusin gulve, hvis du skynder dig.”

“Alle vigtige,” svarede det ciffer i toppen,  
“stammer fra omkring det hjørne der,” som  
jeg vendte det.

## Summary

An epic adventure into madness, this series of alternate history short stories, explores the chains that bind the human spirit to the repetition of survival.

Information alone holds no truth within itself, until part of its whole is overlooked, ignored or removed, whereafter even the obvious can be understood, accepted or denied.

The United States, and the Soviet Union, divided by perspective but united in battle, find at the end of one war the beginning of the next; the printed word's march toward ultimate power, provided only by the distance it could cover.

## Preface – English

**W**ith no such absolute as truth we wander; in mind, in body, in spirit, we are free to waver between consciousness and dreams in search of a survival worthy of our worthiness. Until reality, or whatever loose construct of such we find ourselves engulfed by, pulls us back into the stark-raving here and now, toward burden and commitment through fulfillment and struggle it tests our dreams for truth.

Perhaps truth was not what we had dreamt it was; words and their compulsory feelings often cloud our definitions of the more common concepts. Who even among you speak the word irony without being ironic? In a world, where our most common use of such turns out to be its only definition, do we struggle, in a joke thereby so coincidentally humorous, to survive, among that which laughs with our truths as it laughs

at our dreams, while never neither does to
